ANNEMARIE BIXENMAN CANCER BENEFIT FUND

DIAGNOSED WITH SQUAMOUS CELL
CARCINOMA ON
MAY, 15 2008

Mrs. AnneMarie Bixenman, Age 38, was diagnosed with Squamous Cell Carcinoma. AnneMarie is a hard working, loving mother & wife. For the past few years, she has been helping run her husbands business, Car-O-Sell LLC. Unfortunately, due to being "self-employed", AnneMarie doesn't have medical insurance coverage that will assist in paying for the medical help she needs for cancer treatment . Her prognosis will be good if she can get the chemotherapy & radiation, but her family just doesn't have the funds to pay for treatment. We are asking for your help & support. We have set up a fund to obtain the funds needed to proceed with her treatment. AnneMarie & her family would appreciate anything at this time of illness!

Please make your donations to: **The AnneMarie Bixenman Benefit Fund**
